Vercel

Backend Development

Javascript, Typescript,
Nodejs, Expressjs,
Django, GraphQL, Axios,
MongoDB, MySQL,
PostgreSQL, Mongoose,
Prisma, TypeORM,
Passportjs, Auth0,
Docker, AWS, Mocha,
Chai, Jest, Zod, Postman,
Swagger, Npm, Render

Professional Experience

Nov, 2023 - Apr, 2024

Evento. Lagos, Nigeria

Backend Developer — (Remote)

I was responsible for developing, testing, and documenting all API endpoints concerning the events model.

- Using Typescript and Expressjs, I implemented all functionalities related to the events model, including CRUD operations and integration with Google Calendar API to send reminders of upcoming events.
- I used Mocha and Chai to test all event controllers, ensuring expected data values are received and returned.
- Using Swagger and Postman, I documented all event routes and included examples for the request payload and response data structures.

Sep, 2023 - Nov, 2023

HNG. Lagos, Nigeria

Backend Developer — (Internship)

- In the HNGx cohort of more than 20,000 participants, I emerged as one of the 300 finalists.
- I became adept at time management by delivering solutions within the given deadline.
- I worked with my colleagues to develop SAAS projects using GitHub Organization for project management and GitHub Project for task management.

Jun, 2022 - Aug, 2022

I4GxZuri. Lagos, Nigeria

Fullstack Developer — (Internship)

- I worked with Reactjs and Django, as well as other tools, to develop high-performing web applications.
- I collaborated with my colleagues to tackle various tasks and projects. Together, we were able to provide effective solutions to each challenge.

Academic Education

2020 - 2025

BSc. Mathematics and Computer Science

University of Lagos, Nigeria.

Projects

Nextjs, Kinde, Stripe,
Prisma, Postgresql,
Tailwindcss

[GitHub Repo](#)
